

WE HAVE SURGERY

(to be sung to the tune of "We are Family" by Sister Sledge)

By Alan M Reznik MD MBA

We have sur-ger-y
I got all my nurses with me
We have sur-ger-y
Give up the casting and sling
We have sur-ger-y
I got all my nurses with me
We have sur-ger-y
Give up the casting and sling
Ev'ryone we're doing together
As gas makes us high
(Hey) and we fix it just like it was never
Broke -won't tell no lie
(ALL!) all of the doctors around us, they say
"Here to di-ag-nose!"
Just let me state for the record
We're giving you help, the fullest dose
We had sur-ger-y
I got all my nurses with me

We had sur-ger-y
Dress up the wound and sling
We had sur-ger-y
I got all my family with me
We had sur-ger-y
Get up on crutches and sling
Walking now is fun and we've just begun
To get back to sports and crazy nights
(HIGH!) high hopes we have for the future
And our goal's in sight
(WE!) know we're up for the test
'Cause here's what we call our healin' rule
Have faith in you and the things we do
You won't go wrong
This is our family rule
Cause;
We are fam-il-y...
I have all my patients with me!
